

SCHOOL OF INTERIOR DECORATING & DESIGN

PROFESSIONAL

KITCHEN DESIGN COURSE

Monday 17th May 2010

(10.00 a.m. to 2.00 p.m.) 10 weeks– cost \$1,250.00

Unit 1 - Client briefing and planning

Identify customer needs and provide advice on cabinet design and components, develop preliminary client documentation and provide and monitor ongoing essential services necessary for the design and implementation of kitchen design.

Unit 2 - Site analysis, measuring and calculating

Completion of this unit addresses the skills and knowledge required to develop industry standard kitchen drawings of your design concepts and development of essential work documents in support for manufacture to industry standard.

Unit 3 - Kitchen design and specifications

Develop the processes used to design new and renovated kitchens applying currently recognised quality standards.

Unit 5 - Documentation and presentation

Develop presentation skills to provide high quality presentation techniques in support of your design proposal.
