TWO-DAY HOME DESIGN WORKSHOP

Two-day home design seminar with Judith Molyneux

- Accredited Professional Member of the Design Institute of Australia (DIA)
- Workplace Trainer and Assessor BSZ40198.
- Professional interior design consultant on home design for over 35 years.

FEE \$450.00 including GST

Throughout her extensive career, Judith Molyneux has been providing professional interior design, kitchen, bathroom design and interior décor services and courses privately to people wishing to pursue a career in the home building, retail and design industries.

Attendees of the Short Home Design and Décor Workshops will learn practical advice on how to analyse home designs and solve problems cost-effectively and easily prior to unnecessary expenditure..

Judith's design philosophy stems from extensive experience working with classical solutions, ensuring long-term sustainability and enjoyment of your home.

Workshops numbers are limited. Book early to secure your attendance. *See pages 3 and 4.*

COLOUR -

Understand colour theory and how to develop and implement colour schemes in home design to enhance your interiors and exteriors.

A colour assignment for your home shall be compiled by the course attendee for you to work on at home using your own home as the palette and assessed by Judith.

WINDOWS & TREATMENTS -

There are many types of windows available, all achieving different solutions to various areas, but incorrectly selected may destroy the health and aesthetics of the home.

Learn what to select and why and how to select windows dressings to enhance your enjoyment and look of your home. Windows are a major element in home design, and it is essential we know where and how to use them to their best advantage instead of "just for looks".

FLOOR COVERINGS -

Floors suffer more damage than any other element of the home. The well-informed selection of floor coverings is critical to their longevity and lasting beauty.

Learn why and how to select the correct finish for different areas around the home.

LIGHTING -

The importance of illumination around the home is much underestimated.

Homes display individual preferences through the selection of colours, accessories, and furnishings. Poor lighting installations can affect the function and appearance of homes often resulting in depression if exposure is extended.

Correct illumination can change our moods, assist work tasks, and enhance the enjoyment of our much loved home

ADDITIONAL FULL DAY COURSE -

KITCHENS & BATHROOMS -

In this workshop, Judith will take attendees through the kitchen design and specification process to enable the course attendees to make informed decisions with respect to their new or redesigned kitchen project. It is essential that kitchens are designed around the user, how they cook and for how many. Attendees are shown detailing and design options, doors, bench tops, general finishes, storage options and material considerations.

Numbers are limited for this course.

The fee of \$450.00 inclusive GST is additional to the above,

If you wish to enrol for a workshop please see the following page for enrolment and payment details and email your registration to
