REGISTRATION FORM

Building can be one of the most traumatic experiences to undertake in life.. Understanding the essence of home design can help eliminate confusion regarding contracts, spatial requirements, building materials, window selections and treatments, floors and coverings, lighting (how much is too much) and colour choices.

Registration in a selected HOME DESIGN SEMINAR will give you the confidence required prior to undertaking and confirming building and supply contracts.

Incorrect selections, price anomalies, spatial requirements and essential furnishing requirements, if not pre-determined, can contribute to budget blowouts.
